YOUR INVITATION TO BE A CONFERENCE PARTNER

The 2008 SEAFWA Planning Committee is pleased to announce the 62nd Annual Conference for the Southeastern Association of Fish and Wildlife Agencies to be held October 12–15, 2008 in Corpus Christi, Texas, at the Corpus Christi Convention Center.

ABOUT THE SEAFWA CONFERENCE

The Southeastern Association of Fish and Wildlife Agencies is an organization whose members are the state agencies with primary responsibility for the management and protection of the fish and wildlife resources in 16 states, Puerto Rico and the Virgin Islands. SEAFWA conducts an annual conference each fall to provide a forum for presentation of information and exchange of ideas regarding the management and protection of fish and wildlife resources throughout the nation but with emphasis on the southeastern region. Representatives from state and federal agencies, citizens' organizations, universities and private wildlife research groups present their latest findings relative to resource management, both through scientific research and actual case histories. The conference provides a well-balanced exchange of ideas and information of significant benefit to the conservation community in its efforts to manage fish and wildlife resources.

SPONSOR BENEFITS

The SEAFWA Conference offers your company the unique opportunity to partner with fish and wildlife agencies in protecting their wildlife resources on public and private lands for future generations. Your sponsorship of the 2008 Conference will help SEAFWA provide the training and exchange of ideas for wildlife and fisheries management, research techniques, wildlife law enforcement, hunting and outdoor safety, and information and education programs.

Thanks for your consideration and support!
